My mother, Myrtle Olsen, was very proud to have been a Girl Scout here in Kodiak. In one of the pictures her older sister Marie stands beside her under the sign and her younger sister Laura Belle is on the end. Her dear friend Meriam is standing on the other side of her. Mom said there were three different troops, the Fir Tree, Forget-Me-Knot, and the Robin troops. All of their uniforms were home made and the hems were so many inches from the floor so that when they stood in a line the dress hems formed a straight line as well. Myrtle has relocated to the Anchorage Pioneer Home and her phone number is 278-0004 and she would enjoy answering any questions you might have regarding any of the items I brought in for consideration. She has an outstanding memory!</p>		1905	1942

2020-1-A275	Bottorff Karluk Lake Research Collection	Fonds	<p>Field notebook from John B. Owen in Karluk. C. 1957, given to Richard Bottorff from John Owen; packet of black and white photographs taken by Allen C. Delacy and William M. Morton at Karluk in 1940-1941; small box of Kodak color transparency slides with list and descriptions of the Kodak slides were sent by Loren, prepared by Richard in 1999. See below images.</p> <p>Belongings of Richard Bottorff relating to wildlife research at Karluk Lake. Loren came into possession of these items upon his brother's death. Loren writes, "My brother, Richard Bottorff, wrote a book on the scientific research that has been conducted at Karluk Lake on Kodiak Island since the 1880s. His work on the book included contacting prior lead scientists at the lake. Richard passed away in April 2020 and I found a small box among his personal possessions marked, 'Donate these items to an Alaskan museum.' I thought that a museum in Kodiak would be most appropriate due to the proximity of the Lake. Richard marked the original source information on sticky notes on the photos and field notebook given to him by the lead scientists or their relatives. Sincerely, Loren Bottorff"</p>		1940	1941
